About This Game

A game about games, secrets and stuff.

In the near future, thanks to copyright and patent law abuse, all of the gaming industry became controlled by one corporation, producing low quality but highly profitable casual freemium games and ceasing development of any other more ambitious genres. Any game development outside of the company became outlawed, ending the era of indie games.

Assist young Max Burton, a mighty gamedev wannabe and enthusiastic fresh intern on his first day at his first job in the only gamedev company out there in this short, (soon to be) award-winning **free point-and-click adventure game**. Explore the deepest SECRETS™ of the Tremendous Corporation®. Find out what happened to indie devs and save the gaming industry!

Now on GNU/Linux and Windows, Mac OS X coming soon.

The first version of this game has been made during Global Game Jam 2015 in Poznań, Poland under the name "The Game Jam Game About Games, Secrets and Stuff".
